

President Jerry C. Lee, left, and Leonard G. Perlman, coordinator of the Mary Switzer Memorial Seminar, confer at a reception honoring Mary Switzer Scholars last month. Gallaudet hosted the 10th annual seminar, held by the National Rehabilitation Administration, which recognizes individuals' contributions to the rehabilitation field. Dr. Marita Danek, director of Gallaudet's Rehabilitation Counseling Program, is among the 20 Switzer Scholars named for 1985.

## Special entertainment key to success of potluck dinner for 48 volunteers

"Each year this event becomes bigger, better and more in the spirit of sharing," said Terri Baker, coordinator of the College's Volunteer Program, commenting on last month's third annual Volunteer Thanksgiving Potluck Dinner.

The event, in recognition of the efforts of 48 campus volunteers, was held in "Ole Jim" and included a social, dinner and entertainment program. "This year's event was planned with—rather than for—the volunteers," said Baker. "The result was getting to know one another better on an informal basis."

The entertainment program featured Carl Schroeder, assistant to the coordinator of the Visitors Center, who served as master of ceremonies and one of the performers. Other enter-

tainers included Baker; Susan Watson, coordinator of the Visitors Center; David Schleper, a graduate student working in the National Information Center on Deafness (NICD); Connie Allen, secretary/interpreter with the Visitors Center; Cheryl Hennessy and Arlynn Joffe, senior information specialists with NICD; and volunteers Eva Kruger, David Rauter and Emmett Saunders.

A highlight of the evening was Schroeder's rendition of the "Gally Money Song," a paraphrase of the Gally Fight Song. "Hail to our mighty College (mon-ey) Relations; and hail to our Gally flag, its colors blue and gold (mon-ey)," joined the voices and signs of staff and volunteers in a serenade to special guest Lou Markwith, vice president of College Relations.

"The potluck concept was appropriate for this event because it involved everyone," said Watson. "This made it a family affair—a coming together of all participants in a high-spirited, fun evening."

The Volunteer Program is a function of the NICD, which recruits, screens and places volunteers. "Many of our volunteers are Gallaudet alumni who bring a wealth of experience and expertise to their various duties. Extensive exposure to sign language and deafness-related fields provides hearing volunteers with knowledge that enables them to serve the College in many unique capacities," said Baker. "The potluck dinner is one way for the College community to say 'thank you for your involvement, we're glad you're with us.'"

## Carol Love dies of cardiac arrest

Carol L. Love, a secretary in the Instructional Development and Evaluation Center (IDEC), died Nov. 23 at the Washington Hospital Center of cardiac arrest.

Love, 26 years old, was also a graduate student in educational technology at Gallaudet.

Following services at Faith Presbyterian Church in southwest Washington, Love was buried at Washington National Cemetery.

Love is survived by her parents, Constance and Alfonso L. Love, and a sister, Cathy J. Love.

## College's national recognition well received on, off campus

"On behalf of the Board of Trustees, I salute you, Dr. Lee, and the collegiate faculty, for a job well done."

So said a letter to President Jerry C. Lee from Jane Bassett Spilman, chairman of the board, in response to some good news that spread quickly across campus two weeks ago.

The good news was that college presidents across the country ranked Gallaudet College third in its class, among 74 Eastern schools, according to a survey published in the Nov. 25 issue of *U.S. News & World Report*.

*U.S. News* polled college presidents and asked them to pick the top five undergraduate schools similar to their own, according to size and academic offerings. They were asked to consider such factors as strength of curriculum, quality of teaching, relationship between faculty and students and the atmosphere for learning.

Nine categories of schools were selected, using guidelines provided by the Carnegie Foundation for the Advancement of Teaching. The categories are: national universities, comprehensive institutions (East, South and Border, Midwest and Far West states), smaller comprehensive institutions (same geographic designations), national liberal arts colleges and regional liberal arts colleges.

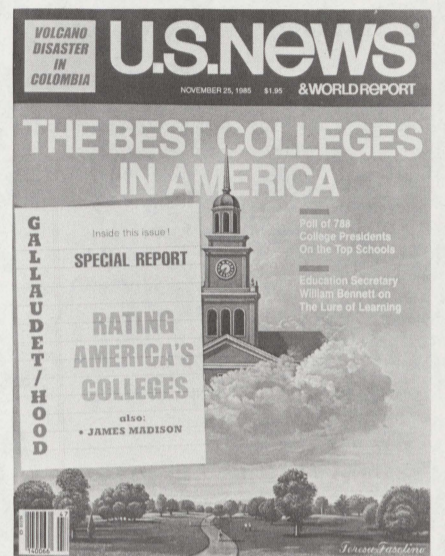

In the category of smaller comprehensive institutions/East, Hood College in Frederick, Md. received the highest rating, followed by Alfred College in Alfred, N.Y., and Gallaudet. *U.S. News* cited Hood for being among the first schools to establish a core curriculum within career preparation, identifying skills rather than subjects students should know.

Alfred and Gallaudet were noted in the survey for distinction in unusual areas. Alfred has the largest college of ceramic engineering in the world, and Gallaudet remains the world's only liberal arts institution for deaf individuals.

In the last *U.S. News* survey, conducted in 1983, Gallaudet tied for fifth place with Concordia College, N.Y. in the category of regional liberal arts colleges.

The news of Gallaudet's third place ranking was greeted on campus with pride and delight. Faculty, staff, students and alumni alike had reason to feel good about being recognized in such a manner. The Public Relations Department ordered 10,000 copies of the article, and other departments set about spreading the word of the prestigious designation.

Terming the designation "a significant achievement," in her letter to Dr. Lee, Spilman went on to say, "This national

Nov. 25 USN&WR cover

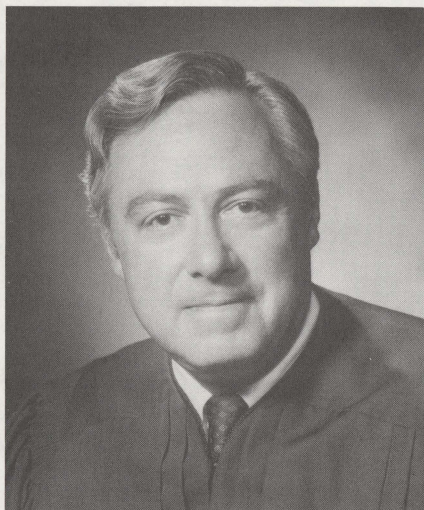

recognition, closely following the recent period when Gallaudet has been beset by formidable challenges and difficult problems, seems to be most timely. It states in a clear and most convincing manner that the president of Gallaudet College and his administration and faculty have an undisputed, well-ordered sense of priorities, and that the faculty has been able to maintain and even enhance the quality of academic programs in the face of difficult and trying circumstances."

Spilman continued, "In your inaugural address last year you dwelled at length on your strong commitment to quality education, and you have zealously demonstrated your determination to carry out this pledge. I think of initiatives such as the Master Plan and the Quality Assessment Report; the successful response to the Oversight Review; the development of new admissions guidelines; the creation of the Presidential Awards; the completion of alumni and enrollment studies; the origination of the Gallaudet Institute; the enhancement of the exchange and interaction with the Consortium of Universities of the Washington Metropolitan Area; the acquisition and emphasis on the computer as a teaching and learning tool . . . the list goes on and on."

Dr. Lee expressed his pleasure about the new ranking, saying, "This information enhances the College's reputation as a quality institution, giving it national visibility which is so important in recruitment of qualified students, maintaining a favorable relationship with the Congress and securing financial support from the private sector."

Vice President Lou Markwith used the *U.S. News* ranking in talks with in-

*continued on page 2*

Judge Thomas P. Jackson

## Judge is newest member of board

Judge Thomas Penfield Jackson, a district judge with the U.S. District Court for the District of Columbia, is the newest member of Gallaudet's Board of Trustees.

Jackson, who received his appointment as a district judge from President Ronald Reagan in 1982, is a graduate of Dartmouth College and Harvard Law School. During a three-year stint in the United States Navy, Jackson served as a line officer and a ship's prosecutor aboard a Navy destroyer.

Jackson practiced law in the District of Columbia for many years and in 1968 became a partner of Jackson & Campbell. He was admitted to practice in the U.S. Supreme Court in 1970 and also to the U.S. District Court for the District of Maryland, the Fourth U.S. Circuit Court of Appeals and the U.S. Court of Claims.

In addition to his membership on the Board of Trustees of Gallaudet, Jackson is a fellow of the American College of Trial Lawyers. His memberships include the American Bar Association, the Dartmouth Club of Washington, the vestry of All Saints' Episcopal Church and the Metropolitan Club.

Jackson attended his first Gallaudet board meeting on Oct. 16, where he received a warm welcome from Jane Spilman, chairman of the board, on behalf of the College community.

## College's prestigious national ranking greeted with pride, glee & new hope

*continued from page 1*

dividual donors, foundations and corporations in New York City last week when he traveled there with Dr. Lee, Spilman and Dr. Philip Sprinkle for the first formal meeting of the Gallaudet Foundation.

"[The recognition] provides extra impetus for people to give to the College," said Markwith. "It adds credibility. People like to donate to successful institutions."

"This designation is a recognition of our excellence among our peers," Markwith continued. "I think the academic faculty should take great pride in this because it is a recognition of their ability and their efforts in higher education. Alumni too can take pride in the prestige and intrinsic value of a degree from Gallaudet."

"This is great publicity for Gallaudet," said Myra Per-Lee, director of admissions. "The fact that presidents of hearing colleges are not saying 'Gallauwhat?' shows that they not only know about us but they also realize how well we are doing our jobs to educate our constituency. This will help us a great deal, not only in our recruitment of top quality high school students but particularly transfer and graduate students who would be influenced by the opinions of educators at other colleges."

"Since the 1983 survey we have

advertised the fact that the last U.S. News survey ranked us as the fifth best small liberal arts program in the East," Per-Lee continued. "Mention of that fact was made at least twice in the many letters we send each student. Now we have replaced that with our even more enhanced status."

"In our formal marketing as well as our conversations with all of our publics—prospective students, parents, school and vocational rehabilitation counselors—we can use this recognition to dispel the myth that Gallaudet only provides liberal arts education and programming," said Per-Lee.

Edward J. Corbett Jr., executive director of the Enrollment Management Office, affirmed this assessment. "Gallaudet can be very proud of the faculty, staff and students—and of the program here on campus," Corbett said. "This tells us that Gallaudet has all the elements that are good: comprehensive programs, support services, research."

For the College, Corbett said, the news "means that we must work harder to maintain that image. We are already moving toward better services, better students, better programs. It also means that we can admit more qualified students who know that Gallaudet's reputation is solid, that a degree earned here is worth a great deal."

Graduate students Kathy Rogers, left, and Cynthia Cunningham pose by a cake marking the 10th anniversary of PL 94-142. The cake was part of last month's annual meeting here of the D.C. chapter of CEC.

## College hosts fall COPIS meeting

Gallaudet's Department of Administration and Supervision of the School of Education and Human Services served as host for the recent annual fall conference of the Council of Professors of Instructional Supervision (COPIS) held in the Merrill Learning Resource Center.

COPIS is a group of professors who teach instructional supervision. Members of the group include such nationally known figures in education as Thomas Sergiovanni, Robert Anderson and Ben Harris.

Presentations at the day-long-conference included "Four Conceptions of Excellence" by Drs. Paul Bell and Leonard Waks of the Pennsylvania State University; "Implications of Research on Effective Schools" by Drs. Gilbert Austin, University of Maryland-Baltimore County, and Stewart Purky, Lawrence University; "Evaluation Through Training" by Nancy Fones, MSSD; "Instructional Supervision: Is Madeline Hunter the Answer?" by Drs. G. Bradley Seager, University of Pittsburgh, Barbara Pavan, Temple University, Francis Duffy, Gallaudet, and E. William Renko, Canon-McMillan School District, Houston, Pa.; and "A Prototype of a Supervisory Support System" by Dr. Renko.

Serving as host for the conference provided the Department of Administration and Supervision with the opportunity to share information on its two programs in educational leadership. The first program offers a PhD degree in special education administration, while the second program offers an EdS degree (education specialist, a post-master's degree) in instructional supervision.

The visiting professors also toured the EMG audiovisual display on the history of deafness and the College. For the majority of the COPIS professors, the visit was their first exposure to deafness and to Gallaudet's programs in educational leadership.

## Announcements

"President Lee's Forum," a monthly television program for the Gallaudet community, will be broadcast on Channel 33 of the campus cable system beginning at 9 a.m. Dec. 11 and continuing hourly through Dec. 13. Dr. Roslyn Rosen, dean of the College of Continuing Education, and Ed Franklin, director of the regional center at Johnson County Community College in Kansas, will join Dr. Lee in discussing Gallaudet's nationwide system of regional centers.

*On the Green* will not be published Dec. 23 and Dec. 30. The deadline for submitting articles for the Jan. 6 issue is Tuesday, Dec. 17.

Members of the Gallaudet community who want to support the Tower Clock yearbook may become gold, silver or regular patrons by donating \$15, \$10 or \$5, respectively. Donors' names will be listed on the patron page in the 1986 yearbook. Contact Mark Summers, advertising manager, at the Tower Clock office Monday through Friday at 4 p.m., or send donations to campus mail Box 2346. Checks are accepted.

The MSSD Performing Arts Department will hold a dance concert Dec. 13 and 14 at 8 p.m., and Dec. 13 at 10:30 a.m. in the MSSD auditorium. The concert will include original performances of breakdancing, ballroom, jazz, modern and tap dancing. Tickets are \$2 for students and senior citizens and \$4 for nonstudents.

The Metro Washington Deaf Racquetball Association will host the 3rd Annual National Racquetball Tournament for the Deaf at the Merritt Racquetball Security in Baltimore April 25-27. The "earlybird" registration deadline was reported incorrectly in the Nov. 18 *On the Green*. Fees paid before Dec. 31 are at a reduced price. For more information, call Sam Sonnenstrahl at work, 840-6150, or at home, 474-3237 (both TDD).

The Department of Mathematics and Computer Science will sponsor a lecture Dec. 11 at 4:30 p.m. in HMB room 203. Visiting professor Richard E. Ladner, will speak on "DBNet—A Computer Network for Deaf/Blind People." After the lecture a demonstration will be given in HMB room 275. The DBNet project is taking place at the University of Washington in Seattle and is supported by the IBM Corporation.

Student traineeships in deafness rehabilitation are now available for full-time master's degree level graduate students in Gallaudet's rehabilitation counseling program, through a long-term grant from the U.S. Department of Education's Rehabilitation Services Administration. The grant provides for traineeships of \$2,925 per academic year for living expenses plus tuition assistance. Applications are currently being accepted for the fall 1986 semester; minority and disabled persons are particularly encouraged to apply. For more information contact Marita M. Danek, College Hall room 404, x5586.

Gallaudet College is an equal opportunity employer/education institution. Programs and services offered by Gallaudet College receive substantial financial support from the U.S. Department of Education.

# Assistive Devices Center serves needs of wide constituency

How can a hearing impaired home-maker/parent get through everyday tasks with a minimum of stress?

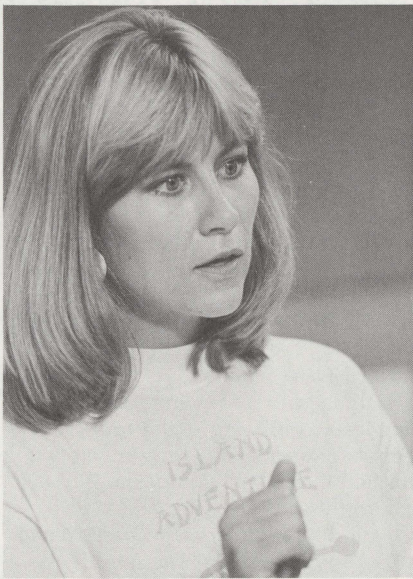

In what ways may a hearing impaired worker reduce communication problems in the workplace and at business meetings?

What would help a hearing impaired student receive aural input in classrooms and other educational settings?

These are some of the questions encountered daily by audiologist Cynthia Fernandes in her position as coordinator of the Assistive Devices Center in the Department of Audiology.

"A primary purpose of the center is to establish real situations where various hearing devices can be demonstrated, compared and evaluated to meet the needs of people representing a wide range of hearing impairments," said Fernandes. "Our goal was to develop a model assistive devices and service delivery program that can be replicated anywhere."

According to Fernandes, the Assistive Devices Center is the most comprehensive of its kind in the metropolitan Washington area. Named the Seltzer Room for the Seltzer League for Deaf Children, Inc., which provided initial funding, the center houses display areas for such devices as alert systems, TDDs, telephone am-

Cynthia Fernandes

plifiers, telecaption decoders, devices for audio output from televisions and interpersonal and large-area communication access systems. Printed and audiovisual educational materials are also available.

In one area of the center, four televisions are installed at eye level to demonstrate infrared units, an FM unit, a portable induction loop, hard wire

equipment, a TV band radio and a closed captioning decoder.

The telephone devices area displays various TDD units, telephone handpieces with amplifiers, and portable amplifiers that attach to two standard telephone sets. There is also a system that permits use of a standard touch tone pad for communicating with persons using a TDD.

A made-to-scale model house is used to demonstrate visual and vibrotactile alert systems that connect to a doorbell, alarm clock, telephone ringer or smoke alarm.

Interpersonal listening devices such as FM systems, hard wire equipment with remote microphones, neckloops and a portable telecoil receiver are shown in another area.

The entire Assistive Devices Center is audiolooped, with the cable placed on the ceiling, and has a wide-area infrared unit. These two systems demonstrate commonly used large-area amplification systems.

A key component of the center is a delivery service program which includes needs assessment, evaluation, follow-up procedures and distribution arrangements with manufacturers and local dispensers.

Although on-campus demonstrations and service delivery are a priority,

outreach programs have been initiated. "Since the inception of the program last February, we have received approximately 25 calls monthly from individuals or their family members and professionals requesting service and information," said Fernandes.

Fitting individuals and selecting effective listening systems often involves some tailoring to meet exceptional problems, Fernandes said. "Through information sharing and cooperation with manufacturers, we are able to come up with new and innovative procedures. We are making an impact on technology, in keeping with Gallaudet's goals for improving the welfare of all hearing impaired people."

## You and Your Job

### Your Retirement Program Part 3 of 5-part Series

This series describes retirement benefits for regular-status employees hired prior to January 1, 1984 and contributing solely to the Civil Service Retirement System. Future articles will address changes in the retirement program for employees hired on or since January 1, 1984.

### Crediting Civilian and Military Service

When determining your total length of service, credit is given for all work performed as an employee of the Federal Government, the District of Columbia Government and Gallaudet College, including service which was covered by Social Security and regardless of breaks in service.

If you worked in a creditable position and made no contributions to the Civil Service Retirement System, you may elect to deposit the amount which should have been contributed, plus interest, in order to get the maximum annuity benefit. If you do not, your annuity is reduced by one-tenth of the amount due as deposit. The same is true if you left the system and took a refund.

There are some advantages and disadvantages to making the deposit. The decision is a personal matter which each employee must make individually. The Personnel Office will be glad to assist in making that decision. Deposit or redeposit may be made in installment payments.

Military service, as a general rule, is creditable service provided it was active service, terminated under honorable conditions, and was performed before separation from a position under the retirement system. If you are receiving military retirement, the years in service do not count towards length of service under the Civil Service Retirement System unless the pay is based on a disability incurred in combat with an enemy of the United States.

Credit for military service prior to January 1, 1957, for which no retirement benefit is being paid, is automatically counted towards length of service under the Civil Service Retirement System. Credit for military service after January 1, 1957 is creditable only if the employee is not eligible for Social Security old-age benefits. Employees with post-1956 military service may also make a deposit for that time and receive Civil Service credit. Please contact the Personnel Office for details.

**Next:** Annuity Computations.

## Sponsored R&D

The Office of Sponsored Programs would like to announce that any and all proposals with deadline dates that fall between December 18 and January 6, 1986 should be in the OSP by December 18, 1985. Thank you for your cooperation.

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for faculty, staff and graduate students. More details on these and other programs of interest can be obtained from the Office of Sponsored Programs, x5034 (V/TDD).

### Deadline Program

12/13/85	ED/OSERS: Extant Data Base
12/15/85	NEH: National Bicentennial Competition—Younger Scholars
12/20/85	ED/NIHR: New Rehabilitation Research and Training Centers
12/31/85	TANDY: Creative Uses of Microcomputers in Business Education
1/3/86	Newcombe Fellowship: Doctoral dissertation on ethical or religious values
1/6/86	NEH: Collaborative Humanities Project Grants
1/6/86	NEH: Precollegiate Humanities Institute Grants for elementary and secondary school teachers, administrators and principals
1/6/86	ED/OSERS and SEP: Handicapped Children's Early Education Program—Outreach Projects
1/10/86	J. Paul Getty Postdoctoral Fellowships for Young Scholars
1/10/86	ED: Cooperative Education Program
1/13/86	ED/OSERS: Increasing Teaching/Learning Efficiency Projects
1/15/86	National Research Council: Associateships for research in basic sciences
1/15/86	NEH: Travel to Collections Endowment Awards
1/15/86	HHS: Innovations in Health Promotion and Disease Prevention Awards
1/15/86	NSF: Research at Interface of Chemistry and Biology
1/15/86	NIH: Health Related Research Projects
1/17/86	National Research Council: Fellowships for Minority Group
1/21/86	ED/OSERS: Transitional Services for the Handicapped
1/21/86	ED/OSERS: In-Service Training—Handicapped Children's Early Education Program
1/21/86	ED/OSERS: Secondary Education and Transition Services for Handicapped Youth Cooperative Models
1/31/86	American Antiquarian Society: Fellowships to study at the AAS library
2/3/86	ED/OSERS: Handicapped Field Initiated Research
2/15/86	University of Oregon, Department of Russian: Summer Workshops in Chinese and Russian Language
3/3/86	ED/OSERS: Educational Media Research, Production, Distribution and Training
3/14/86	ED/OSERS: Research in Education, Student Initiated Research Projects
3/21/86	ED/OSERS: Auxiliary Activities, Innovative Programs for Severely Handicapped Children

Jeff Float, 1984 Olympic gold medalist, shakes hands with fans during a visit to MSSD Nov. 22. Hearing impaired since infancy, Float was a member of the world record-setting 800-meter freestyle relay team.

## National TV spot: More Bison fame

Head coach Bob Westermann and Bison Center James Gardner scored another first for Gallaudet when they were interviewed by David Hartman on ABC's "Good Morning America" on Thanksgiving day.

The appearance on national television came about because of the football team's best record in 55 years and Westermann's subsequent loss of hair. Gardner performed head-shaving honors after the team's Nov. 9 victory over St. Francis College.

ABC flew Westermann, his family and Gardner to New York City on Nov. 27 and put them up at the Plaza Hotel overnight. Westermann and Gardner were at the ABC studio at 7 the next morning for the live interview, which included a videotaped segment produced by Washington's Channel 7.

ABC later flew Westermann and his wife and two children to Pittsburgh, where they celebrated Thanksgiving with family. Gardner flew back to Washington for the holiday.

Calling the experience "interesting," Westermann said that the nationwide exposure was "an excellent public relations opportunity for the College." He added, however, that he hoped the attention being paid to his bald head would now begin to diminish.

## New manual available

Barbara Hardaway of the English department at the School of Preparatory Studies (SPS), Northwest Campus, has developed a manual and instructional package which provides hearing impaired students with training in vocabulary and grammar.

"Vocabulary Building Through Creative Role-Playing" uses guided creative dramatics to teach synonyms and to help students study basic English sentence structures, selected parts of speech and idiomatic expressions.

According to Hardaway, "By learning more about vocabulary and using new vocabulary through role-playing techniques—gesturing and mime—the hope is that students will improve their written communication skills and become more receptive to learning English."

"Vocabulary Building Through Creative Role-Playing" is available through the English department of SPS.

## Bachtel achieves All-American status, only third College athlete to do so

Women athletes at Gallaudet distinguished themselves this fall with accomplishments sometimes hidden by the focus on the football team's comeback.

Gallaudet's Betsy Bachtel finished ninth in the NCAA Division III Women's National Cross Country Championships at Stone Mountain Park, Ga. on Nov. 23. Bachtel's time for the 5K run (3.1 miles) was 19:13. Her position among the first 15 runners earned her an NCAA plaque.

Bachtel, who was named an All-American for placing in the top 25, competed against 111 top runners who qualified in regional competitions around the country. She had placed first out of 54 runners who participated in the Nov. 16 NCAA Division III South-Southeast Regional. Her winning time in the regional was 19:15.9.

In being named an All-American, Bachtel joined the ranks of two other Gallaudet athletes so honored. Nancy Mumme achieved All-American status in volleyball in 1981 under standards set by the American Intercollegiate

Association for Women (IAIW). And in 1983 Jay Conley was named an NCAA All-American in track and field for the discus.

The women's volleyball team provided excitement on campus as it advanced to the NCAA Division III Women's Volleyball Regional. The team was eliminated from the competition on Nov. 23, but not before soaring to 8th in the nation among NCAA Division III schools.

The Gallaudet team lost to Western Maryland College, host school for the regional, with scores of 15-6, 9-15, 10-15 and 12-15. Coach Peg Worthington said, "I felt the team played very well, but the Western Maryland players hit their potential during the match."
